

New to Student Residences?

How to keep on good terms with your neighbours.

March 2011

You are now sharing a roof with many other students and must take your own responsibility for the conditions and atmosphere within the community. This makes it vital to be considerate and keep a few rules:

Use of shared facilities such as kitchens, WCs and showers:

- Keep the kitchen tidy! Keep work surfaces, sinks, cupboards and appliances (e.g. the fridge) clean and dispose of food that's gone stale or bad!
- Separate your rubbish and take it out regularly! This keeps vermin away and avoids unpleasant smells!
- Keep the bathroom and WC clean and hygienic!

Condition of your own room/apartment:

- Please look after your own room/apartment! Heat it adequately and air it regularly! Do not store any furniture, shoes, rubbish or anything else in front of your room!

Communal living:

- Be considerate towards your fellow residents!
- Observe the statutory quiet periods! (10 p.m. – 8 a.m.)
- Please do not smoke in the Mannheim student residences.
- Pets are not allowed in the student residences!
- Please hold parties in the common rooms and consult the party tutor and the caretaker!

Shared spaces; corridors and common rooms:

- There are enough bicycle storage facilities for each building. Only leave bicycles in the designated areas!
- Only dry your washing in the designated laundry rooms in the basement!
- Only stick posters and notices of any kind in the entrance areas of the buildings where there are suitable surfaces!
